

TUF

TROUBLESHOOTING GUIDE

// TUF 25W

LIGHT	DESCRIPTION
	Blue LED - standard fast charging up to 5V
	Flashing blue LED - fault due to Type A overcurrent, or overheating
	Green LED - Power Delivery 9V - 20V
	Flashing green LED - fault due to Type C overcurrent, or overheating. Self resetting once device is unplugged

Both TUF 25W and TUF HP have short circuit protection that is self resetting.

// TUF HP
